
Test Summary

Product Name: nopCommerce (Frontend)

Prepared by: Surbhi Singh

1. Project Overview

- **Application:** nopCommerce Demo Website
- **Application URL:** <https://demo.nopcommerce.com/>
- **Testing Type:** Manual Functional Testing
- **Testing Environment:** Google Chrome, Windows
- **Modules Tested:** Registration, Login, Shopping Cart, Wishlist

2. Testing Summary

Metric	Result
Total Test Cases Designed	51
Test Cases Executed	51
Passed	46
Failed	5
Not Executed	0
Bugs Reported	5

3. Testing Activities

- Prepared test scenarios and test cases for the selected modules.
- Executed test cases manually.
- Compared actual results with expected results.
- Documented observed issues in bug reports.

4. Defects Identified

A total of 5 potential defects were documented across Registration and Product Display/UI. These included issues related to registration email delivery, password validation, name-field validation, and product layout alignment.

5. Conclusion

Manual testing helped evaluate the selected nopCommerce functionalities and document potential defects. Further verification may be required to confirm whether all reported issues violate the application's expected requirements.
